MISSION STATEMENT

Hera Skate empowers Flinta (Female, Lesbian, Intersex, Non-Binary, Transgender & Agender) and migrant communities through skateboarding and creativity. As a Berlin-based association, we challenge societal norms by creating inclusive, diverse, and accessible spaces for marginalized communities.

VISION

We envision a world where underrepresented communities find safety, support, and inspiration through skateboarding and artistic expression. Our programs cultivate resilience, confidence, and meaningful connections within the community.

SKATE SESSIONS

The Hera Skate Sessions provide a welcoming space for the Flinta community to meet and skate together. Two Roll Models support newcomers and beginners, fostering an environment where participants can create friendships, build confidence, express themselves, and develop new skills. By cultivating a sense of community, solidarity, and safety in a public space, the sessions break down barriers in a male-dominated sport. Participants are accepted and celebrated for being themselves, however they choose to identify.
